Chulalongkorn University

Chulalongkorn University Annual Report Fiscal Year 2024

October 1, 2023 - September 30, 2024

A Message from the President

Chulalongkorn University's management approach is based on a holistic growth strategy with students at its center. This is driven by a workforce that fosters growth and internationalization, promoting critical thinking across both degree and non-degree programs to support lifelong learning for all ages. Furthermore, the university aims for integrated growth and serves as a center for collaboration with external organizations. Examples of this collaboration include Chulalongkorn University's participation as a partner in the World Economic Forum's (WEF) report on key drivers of the future labor market.

Over the past year, Chulalongkorn University has been ranked among **the top 50 universities globally** in the Times Higher Education Impact Rankings 2024 for "Sustainability" and **number one in Thailand** for the development of sustainable innovation, industry, and infrastructure.

The Times Higher Education World University Rankings 2025, announced on October 9, 2024, **ranked Chulalongkorn University number one in Thailand**, with outstanding performance in Research Quality, Research Environment, and Industry Promotion.

The QS World University Rankings (WUR) 2025, announced on June 5, 2024, **ranked Chulalongkorn University number one in Thailand and in the top 100 globally** in two areas: Academic Reputation and Employment Outcomes. Furthermore, it **ranked first in Thailand, 57th in Asia, and 229th globally**.

In the near future, the university aims to drive growth in line with rapid change. With a focus on becoming a University of AI, we aim to support the development of artificial intelligence that meets the needs of the digital age. We endeavor to equip students with the skills and knowledge not only for academic success but also to improve their quality of life and work, enabling them to become key contributors to the country's sustainable development.

Executive Summary

Chulalongkorn University operates under the vision, "A world-class university delivering life-changing values through innovative wisdom, mastery, and philanthropic spirit." The 2024 fiscal year was a transitional period for the administration. Advancing the university towards becoming a Global Thai University focuses on driving it to be an AI University, creating impactful outcomes to help society, and adapting the university's role to provide knowledge that improves citizens' quality of life to promote lifelong learning. The operating results are as follows:

Graduate Production: Total Students: 42,360 people • Bachelor's30,173 • Master's8,388 • Doctoral2,885 • Graduate Diploma and Higher914 New Students: 12,584 people Graduates for the academic year 2023: 9,436 people Programs offering instruction: 448 programs • Physical and Life Sciences60.8% • Humanities and Social Sciences31.1% • Interdisciplinary8.1% • Thai programs:76.5% • International and English-language programs:23.5% Educational support funds: 10,952grants Totalling881.08million baht		Research, Development, and Innovation: Driving and creating impactful research at a national level across various issues in Thai society, and heavily investing in various research projects. External funding sources: 414 projects Total external funding: 2,138.81 million baht University funding sources: 1,070 projects Total university funding: 428.52 million baht Researchers receiving awards: 205 people • National awards111 people • International awards94 people	
General Administration: Total personnel: 7,775 people • Academic Staff3,009 people • Support / Operation Staff4,766 people		Academic Services: Focusing on operations that link communities and society through various activities and projects. This includes transferring knowledge from various courses to spatial contexts and serving as a model for organizing activities, showcasing Thai people's abilities to the public. Regarding the university's projects support the application of academic/research projects for societal benefit. Art and Culture: Prioritizing the conservation and dissemination of Thai identity. Over the past year, diverse performances have been continuously broadcast. Experts in both traditional and contemporary styles attracted over 265,000 attendees and 12.60 million online views. Important activities included birthday celebration activities for Princess Dara rasmi, music performances, and initiatives that fostered cultural relations with domestic and international agencies.	
General Administration: Areas within Bangkok and network areas for research and learning in 6 provinces: Chiang Mai, Nan, Saraburi, Nakhon Pathom, Chonburi, and Pattani.			

Overall Summary:
The university, in addition to advancing its original vision, is pursuing continuous development across various areas. Plans and projects that deliver clear operational results are a step toward achieving Chulalongkorn University's goals on the global stage. It was ranked 50th globally in the Times Higher Education Impact Rankings 2024 for sustainability and 1st in Thailand for SDG 9 (Industry, Innovation and Infrastructure). It was also ranked 1st in Thailand for academics and research by various university rankings, reflecting its continuous commitment to elevating the university internationally.

VISION

THE GLOBAL THAI UNIVERSITY
DELIVERING LIFE-CHANGING VALUES
THROUGH INNOVATIVE WISDOM, MASTERY,
AND PHILANTHROPIC SPIRIT

MISSION

TO CREATE ETHICAL AND MASTERY LEADERS

Producing leaders who possess ethics, modern intelligence, and expertise.

TO CREATE AN INTERNATIONALLY ORIENTED AND IMPACTFUL UNIVERSITY

Developing Chulalongkorn University to be a world-leading university with a public spirit, focusing on creating output to help society both domestically and internationally.

TO DEVELOP A SUSTAINABLE ORGANIZATION

Developing Chulalongkorn University to be a role model for a sustainable organization.

TO ADVANCE RELEVANT KNOWLEDGE AND PROMOTE LIFELONG LEARNING AND WISDOM FOR ALL

Creating advancements in bodies of knowledge that are relevant to global changes, promoting lifelong learning, and incubating wisdom for citizens both domestically and internationally.

VISION

CHULA POWER OF TOGETHERNESS

GOAL

TO BECOME THE MOST ADMIRABLE,
CONNECTED & SUSTAINABLE UNIVERSITY IN THAILAND

KEY STRATEGY

CHULA TOGETHERNESS & GROWTH

CHULA GROWS IN ALL DIRECTIONS WITH STUDENTS AT ITS CENTER

1.UPWARD GROWTH
INTERNATIONAL GROWTH

3.RIGHTWARD GROWTH
INTERNAL GROWTH

4.LEFTWARD GROWTH
INTEGRATED GROWTH

2.DOWNWARD GROWTH
IMPACTFUL GROWTH

03 THE UNIVERSITY'S ROLE ON THE GLOBAL STAGE AND DRIVING SUSTAINABLE DEVELOPMENT

University Rankings on the Global Stage:

World-Class Sustainable University

THE Impact Rankings 2024:

Chulalongkorn University **ranked 50th globally**, according to the Times Higher Education Impact Rankings 2024, which assesses operations that support sustainable development goals and create societal impact. The university was also **ranked 1st in Thailand** for SDG 9 (Industry, Innovation and Infrastructure), reflecting its success in prioritizing SDGs Impact through social innovation and sustainable development operations

THE World University Rankings 2025:

Ranked 1st in Thailand by The Times Higher Education World University Rankings, including outstanding performance in Research Environment and Industry.

QS World University Rankings (WUR) 2025:

Ranked 1st in Thailand and within the Global Top 100 for 2 indicators: Academic Reputation and Employment Outcomes.

THE Asia University Rankings 2024:

Ranked 1st in Thailand and Top 200 in Asia, with outstanding performance in Research Quality and Industry.

Webometrics Ranking Universities 2024:

Ranked 1st in Thailand and 416th globally. This evaluates the university's capability as an "e-University" using 3 indicators: Visibility (measured by external links to the university's web domain), Transparency (measured by citations on Google Scholar), and Excellence (measured by the number of highly cited papers in the SCImago database).

QS World University Rankings by Subject 2024:

Ranked 1st in Thailand in a total of 32 subjects across 4 broad subject areas:

- Art & Humanities: 8 subjects
- Engineering & Technology: 7 subjects
- Natural Sciences: 6 subjects
- Social Sciences & Management: 10 subjects
- Life Sciences & Medicine: 1 subject

The 32 ranked subjects include:

1. Accounting & Finance,
2. Anthropology,
3. Architecture & Built Environment,
4. Art & Design,
5. Business & Management Studies,
6. Chemistry,
7. Computer Science & Information Systems,
8. Dentistry,
9. Earth Sciences,
10. Economics & Econometrics,
11. Education & Training,
12. Engineering - Chemical,
13. Engineering - Civil & Structural,
14. Engineering - Electrical & Electronic,
15. Engineering - Mechanical,
16. Engineering - Mineral & Mining,
17. Engineering - Petroleum,
18. English Language & Literature,
19. Environmental Sciences,
20. Geography,
21. History,
22. Law & Legal Studies,
23. Linguistics,
24. Materials Sciences,
25. Modern Languages,
26. Performing Arts,
27. Physics & Astronomy,
28. Politics,
29. Social Policy & Administration,
30. Sociology,
31. Sports-Related Subjects,
32. Theology, Divinity & Religious Studies.

THE UNIVERSITY'S SUSTAINABLE DEVELOPMENT

The university's sustainable development strategy for the years 2024–2028 comprises all nine Sustainable Development Goals (SDGs), which include:

GOAL 3

Ensure healthy lives and promote well-being for all at all ages.

GOAL 6

Ensure availability and sustainable management of water and sanitation for all.

GOAL 7

Ensure availability and sustainable management of water and sanitation for all.

GOAL 8

Promote sustained, inclusive, and sustainable economic growth, full and productive employment, and decent work for all.

GOAL 9

Build resilient infrastructure, promote inclusive and sustainable industrialization, and foster innovation.

GOAL 11

Make cities and human settlements inclusive, safe, resilient, and sustainable.

GOAL 12

Ensure sustainable consumption and production patterns.

GOAL 13

Take urgent action to combat climate change and its impacts.

GOAL 17

Strengthen the means of implementation and revitalize the global partnership for sustainable development.

Driving SDGs into Society

SDGs City Prototype (SDGs City):

Guided by the Sustainable Development Goals (SDGs), this project aims to improve the quality of life, economy, society, culture, and environment across the university's spatial areas. This supports sustainable urban growth, with Chula students and staff as the primary drivers.

TOP Green' Course for High-Level Executives on Sustainability:

Chulalongkorn University organized this course for high-level executives wishing to drive their organizations sustainably and transition toward green businesses. It was designed for business owners, board members, C-level executives at medium to large corporations, and high-ranking government officials, with a focus on creating genuine positive environmental and social impacts.

Smart Sustainable City for Silver GEN:

This collaborative course among the university, the Digital Economy Promotion Agency (DEPA), and alliances was launched to develop a new generation of city developers ready to accommodate evolving social, economic, and technological dynamics in an aging society.

Hult Prize 2024 Global Summits, Bangkok:

Chulalongkorn University hosted the event to identify startup ideas from students that prioritize sustainable development globally. More than 60 teams from 19 countries participated, marking the first time Thailand has hosted this regional competition.

The New Growth Engine (Guidelines for Sustainable Youth Development):

The university aims to serve as a compass for employers to develop youth with the right skills for future work. It aims to transform them into "First Drivers" in ways that align with the contexts of Thai and global societies.

Creating Knowledge and Innovation to Enhance Society towards Sustainable

Chula SDG: Beyond Leading Change, Class 4:

This initiative aims to build a team capable of aligning projects and activities with the Sustainable Development Goals (SDGs). It encourages personnel to initiate development projects, catalyzing the growth of capabilities to develop society sustainably.

Capacity Building for Carbon Management Personnel targeting Net Zero:

This curriculum develops university personnel in carbon management toward Net Zero targets. Participants who meet the criteria receive a certificate of evaluation from the Thailand Professional Qualification Institute's testing center.

APRU SDG Education for Global Citizenship Program 2024

Chulalongkorn University supported students in presenting social innovations by Thai youth and sharing ideas for creating innovations that respond to the SDGs.

SDGs x CHULA (Chula Innovates for Sustainable Development):

This collaboration delivers online learning through CHULAMOOC, featuring content on the 17 SDGs and showcasing Chula's innovations. This collaboration advances sustainability by building understanding among students, staff, and the general public.

Chula Safety Well-work & Well-being 2024:

The university focuses on the holistic well-being of its personnel. It organized the "Increasing value for waste" event to stimulate awareness on changing behaviour at home to manage food waste more effectively.

GRADUATE PRODUCTION

Educational Support Policy

The university has a key objective of promoting modern education by striving to become an international university collaborating with leading universities worldwide. It aims to provide inclusive education for all ages, attracting more international students to study in Thailand. This, in turn, generates income and contributes to the country's economy, aligning with Chulalongkorn University's strategic development plan.

The university's growth is holistic, with students at the center, focusing not only on developing fundamental knowledge but also on cultivating lifelong intelligence in every student. This enables them to solve immediate problems, understand social changes, and live fulfilling lives.

New students, all students, and graduates

Level of Education	Number (People)
Bachelor's degree	30,173
Master's degree	8,388
Doctoral Degree	2,885
Graduate Diploma	94
Advanced Graduate Diploma	820
Total	42,360

In the academic year 2024, the university enrolled a total of 42,360 students, broken down into 71% undergraduate and 29% postgraduate levels.

New students

For the 2024 academic year, there will be a total of 12,584 new students across all levels. This is broken down as follows: Bachelor's degree students (7,951), Master's degree students (3,630), Doctoral degree students (615), Graduate certificate students (95), and Advanced graduate certificate students (293). The ratio of Bachelor's degrees to graduate students is 63:37.

Graduates

The number of graduates for the academic year 2023 was 9,436, categorized as follows: Bachelor's degree: 63%, Graduate degree: 37%.

Program Administration

Level of Program	Number (Program)
Undergraduate	79
Graduate Diploma	5
Master's Degree	217
Higher Graduate Diploma	8
Doctoral Degree	138
Joint Institute	1
Total	448

Overall, the courses are structured as follows:

- Physical and Life Sciences: 60%
- Humanities and Social Sciences: 30%
- Interdisciplinary: 10%

The total number of programs, 105 are international and English-language programs.

Proportions by Discipline

Discipline	Number (Programs)
Life Sciences	122
Physical Sciences	150
Social Sciences	97
Humanities	42
Interdisciplinary	36

Proportions of Thai and International Programs

Program	Number (Programs)
Thai Programs	342
International Programs	97
English Program	8

Educational grants

Level	Number (Grants)	Million (Baht)
Non-degree (Undergraduate)	453	12.21
Bachelor's / Equivalent	6,081	273.14
Non-degree (Graduate)	108	6.78
Master's / Equivalent / Grad Diploma	2,578	287.27
Doctorate / Equivalent / Higher Grad Diploma	1,603	226.60
Post-Doctoral	129	75.08
Total	10,952	881.08

The number of scholarships is categorized by level of education

Program Administration

- The university allocates subsidies from income and property revenue to give students equal educational opportunities.
- Educational subsidies
 - Academic excellence awards
 - Reputation and contribution funds
 - Research subsidies for graduate students
 - Research subsidies for undergraduate students

Chula Student Wellness promotes good mental health among students

It provides psychological counseling services for students experiencing mental health issues such as stress, depression, anxiety, media addiction, and interpersonal relationship problems. Students can schedule consultations directly with clinical psychologists or through the application.

Student Care

The university provides basic welfare services to ensure students have quality living conditions, particularly in dormitories. These facilities assist students in need of housing and adequate amenities, aiming to create a space for knowledge development and social interaction. The university currently has five dormitory buildings: Phud Son Building, Champa Building, Champee Building, Phut Tan Building, and Chuan Chom Building.

Enhancing learning resources for students

The university aims to create sufficient learning resources to meet the needs of students through all types of high-standard information resources, such as international academic journals, rare publications, digital media, textbooks, and magazines, etc., to fulfill the needs for learning, teaching, research, and intellectual curiosity.

Examples of Student Achievements

Startup Ecosystem Exposure:

The university hosted a startup promotion event to develop students' potential to start and grow real businesses. The activity supported the business ecosystem and provided opportunities for knowledge exchange and networking among students. It featured expert speakers in startup business and had 98 participants.

National Higher Education Innovation Awards 2024:

Chula students received Gold, Silver, and Bronze medals, totaling 10 awards across fields such as agriculture and food industry, public health, health and medicine, energy, environment, BCG Economy, quality of life, and Soft Power at the National Research Expo 2024.

Chulalongkorn University students win outstanding awards in the 2024 Thai Young Artist Award Project

Students from the Faculty of Arts, Faculty of Education, and Faculty of Communication Arts, Chulalongkorn University, received outstanding awards in the "Young Thai Artist Award 2024" project, organized by the SCG Foundation.

Hult Prize 2025:

The Cutesy Consulting Network team from the Faculty of Commerce and Accountancy and the Faculty of Economics won first runner-up at the Hult Prize startup competition, the global business case competition.

Special Passenger Lounge Interior Design (Suvarnabhumi Airport):

Architecture students designed a special passenger lounge emphasizing "Thai Identity" for First and Business Class passengers of Thai Airways.

Indonesia Capital Market Student Studies (ICMSS):

A team from the Faculty of Commerce and Accountancy won the Best Case Study award at the 23rd Indonesia Capital Market Student Studies hosted by the Faculty of Economics and Business, University of Indonesia.

Winner of the Thaivivat Innovation Camp 2024 project

The Ken Cha Na team from the Faculty of Engineering won first runner-up in the Thaivivat Innovation Camp 2024 with their "Server Runtime Insurance" project. Their concept, "Innovation for Green Society," incorporated elements of IoT, AI, Big Data, and Lifestyle. The project was organized by Thaivivat Insurance.

05

RESEARCH, DEVELOPMENT, AND INNOVATION.

The University as a Leader in Research

The University is a leader in research, driving high-impact research that supports national policies. Developing research outcomes to address societal issues and responding to national strategic plans to elevate output to an international level (Tier 1 and Top 100 globally). Providing research funding support for professors and researchers. In addition, the university supports research infrastructure, promoting publication of academic work at international conferences to foster academic cooperation.

Chula Researchers Among the World's Leading Scientists.

Chulalongkorn University professors and researchers have been listed in Elsevier's "World's Top 2% Scientists" database. Career-long impact: 34 researchers (Data updated: October 2023). Single calendar year impact (2022): 48 researchers (Data updated: October 2023)

Chula Co-Drives the Country's SOFT POWER

Thailand's University of AI: Towards becoming an AI Hub for Southeast Asia. The establishment of this Artificial Intelligence institute aims to open up a new world of the future for the nation's public and private sector organizations, and to encourage their participation in AI development. This will

Sustainable Society Platform

The "Sustainable Society Platform" promotes an interdisciplinary research environment within Chulalongkorn University and in collaboration with external universities. This

become a central hub for communication and a source of Large Language Model (LLM) education, encompassing knowledge across all fields at the higher education level, and a system that connects languages with Thai AI. It will serve as an AI University with expertise to address the needs of AI organizations.

aims to share research findings and disseminate knowledge to the wider community, addressing complex sustainability challenges and leading to truly sustainable social solutions.

Chula Co-Drives the Country's SOFT POWER

**Rethinking Soft Power
with Place Branding:**

World-class Place Branding experts and Chula academics co-hosted an academic seminar on "Rethinking Soft Power with Place Branding." They discussed Place Branding as a powerful tool to promote Thai identity and drive Thailand's Soft Power to its maximum international benefit.

**Integrated Woven Cloth
Cultural Capital:**

Fostering community economy alongside cultural capital development, using integrated woven cloth to create contemporary fashion, and transforming local products into modern lifestyle fashion brands. This promotes the creative economy, adds value to the cultural industry, and drives sustainable community tourism.

**Book: Reviving the History of Muay Thai
on the Global Stage:**

A research project and book exploring the history of Muay Thai worldwide. It serves as a historical record of Thailand, fostering pride, courage, and fighting spirit. It acts as a guide to spread Muay Thai globally through cinema, international sporting markets, foreign educational institutions, and Thai tourism agencies abroad.

Chula Co-Drives the Country's SOFT POWER

Inviting Foreigners to Learn Thai:

Allowing foreigners from diverse nationalities to learn Thai easily and enjoyably with native Thai speakers. This builds networks and helps practice the Thai language through cultural contexts and the Thai way of life.

Thai Street Food Culture:

Managing the shop spaces in the Chula-Samyan-Thong Lo areas to become hubs for Thai Street Food. This attracts foreign tourists, generates trends, and increases popularity among consumers.

'Insight Wat Pho' Application:

An application to support tourism at Wat Pho. It includes AR (Augmented Reality) games for searching for giants, exploring the Wat Pho giants, and discovering a vast amount of historical knowledge.

Songkran Siam Square Culture:

Promoting the Songkran festival—allowing foreigners worldwide to recognize it as a form of cultural diplomacy—was organized in the Siam Square area.

Funding for Research Projects

Research Projects from External Funding Sources (Number of Projects)

The university received funding for 64 projects from foreign capital, 138 from the Thai private sector, 85 from the government sector, and 127 from other sectors.

Research Projects from External Funding Sources (Budget)

Funding budgets included 211.05 Million Baht from foreign capital, 1,090.30 Million Baht from the Thai private sector, 422.18 Million Baht from the government sector, and 415.28 Million Baht from other sectors.

Research Projects from Internal Funding Sources (Number of Projects)

Internal funding supported 238 projects from the Fundamental Fund, 831 projects from the Ratchadapisek Somphot Endowment Fund, and 1 project from the Princess Maha Chakri Sirindhorn Fund.

Research Projects from Internal Funding Sources (Budget)

Internal budgets included 274.76 Million Baht from the Fundamental Fund, 153.46 Million Baht from the Ratchadapisek Somphot Endowment Fund, and 0.30 Million Baht from the HRH Princess Maha Chakri Sirindhorn Fund.

Support for International Publications

Supported the publication of 230 international articles and 316 international conference presentations (Total: 546 items).

The budget allocated was 8.41 Million Baht for publications and 2.01 Million Baht for conferences (Total: 10.42 Million Baht).

Examples of Promoting Research

Glowing land snails of Thailand and the world

Chulalongkorn University researchers have discovered the first glowing land snail in Thailand and the world in 80 years. Winning the vote, they were selected as the "International Snail of the Year 2024." Thailand will receive support for further genetic sequencing and study of this snail species.

DeepGI AI detects colon cancer

A collaboration between the Faculty of Engineering and the Faculty of Medicine has developed DeepGI, an AI innovation used in colonoscopy and gastrointestinal endoscopy for accurate cancer detection. This technology is already in use at Chulalongkorn Hospital and has garnered international recognition at the ENDO 2024 International Conference on Gastrointestinal Endoscopy in South Korea.

Rice with egg whites: an innovative alternative food

This product, made from 100% egg white protein, undergoes a manufacturing process that transforms the protein's structure into egg white rice. It mimics the shape, taste, and texture of real rice while retaining its nutritional value and posing no health risks. This startup, from the Faculty of Allied Health Sciences, under the product name "eggyday," won a gold medal at the Bangkok International Intellectual Property Invention Innovation and Technology Exposition

Toys that promote the well-being of the elderly

Innovative products that promote physical and mental well-being help slow memory loss and reduce the risk of depression. Three types of toys and home decor for the elderly – a rocking chair, decorative mats, and building blocks/picture frames – have received positive feedback both nationally and internationally. They were awarded the 2024 Creative Social Impact Awards from the Creative Economy Agency (Public Organization) in the category of Social Impact.

DeepGI AI for colorectal cancer detection

A collaboration between the Faculty of Engineering and the Faculty of Medicine, DeepGI is an AI innovation used in colonoscopy and gastrointestinal endoscopic examinations for accurate cancer detection. It is already in use at Chulalongkorn Hospital and has garnered international recognition at the ENDO 2024 International Conference on Endoscopic Examination of the Gastrointestinal System in South Korea.

GoCheck: An innovative genetic testing device for gonorrhea

"GoCheck" is a DNA-based electronic device for detecting gonorrhea genetic material, providing results in 15 minutes. Developed by the Institute of Biotechnology, it addresses the challenges of gonorrhea screening and received an invention award from the National Research Council.

Examples of award-winning research and innovation projects

WorldInvent Singapore 2024

A groundbreaking innovation, a sweat-based glucose sensor belt for self-screening of diabetes with results displayed on smartphones, developed by researchers from the Thailand Institute of Metals and Materials Research (TIM), has brought prestige to Thailand by winning three major awards: a Gold Medal from WorldInvent Singapore, a Special Award from the European Academy of Sciences, and a Special Award from the National Research Council of Thailand (NRCT) under the Ministry of Higher Education, Science, Research and Innovation, at WorldInvent Singapore 2024.

The 17th International Inventions and Innovations Show (INTARG® 2024)

- "Sand Pearl": Pearlescent sand from mussel shells for sustainable art projects, from the Faculty of Education, received the Gold Medal and Special Prize.
- "ECO-Deco": Glassy sand processed from mussel shells for sustainable decoration, from Chulalongkorn University Demonstration School, Primary Section, received the Gold Medal.
- "CU-Dough": Antibacterial dough using Cu nanoparticles, from Chulalongkorn University Demonstration School, Primary Section, received the Gold Medal.
- Components for enhancing resistance to pathogens in tilapia using nanoemulsion encapsulating turmeric extract and nanoemulsion encapsulating Andrographis paniculata extract," from the Faculty of Veterinary Medicine, received the Silver Medal and Special Prize.
- "deBUG Kitchen Factory": A system for producing an organic insecticide from eggshell waste using kitchen utensils and cooking ingredients, developed by the Faculty of Science, received the Gold Medal.

International Exhibition of Inventions Geneva 2024, Switzerland

- BioCa: Calcium Chelate Liquid Fertilizer, from the Faculty of Science, received the Gold Medal.
- Debug: Biological Pesticide from Eggshell Waste, from the Faculty of Science, received the Gold Medal. - Rapid Field DNA Detection Kit using CRISPR-CAS 12A Technology for Aristologenic Acid-Producing Plants that Cause Kidney Disease, from the Faculty of Pharmacy, received the Silver Medal.
- Senovate AI: Real-time Monitoring System for Dairy/Beef Cattle Behavior in Tropical Regions using High-Precision AI Sensors to Reduce Artificial Insemination Cycles and Predict Disease Outbreaks, from the Faculty of Veterinary Medicine, received the Silver Medal and the Prize of the Delegation of Malaysia.

International Innovation & Technology Exhibition 2024 in the Federation of Malaysia

- The invention, "Asiatic Acid Transfer Somenge Gel for Scar Removal" from the Faculty of Pharmacy, received the Gold Medal and the Special Prize for the best international invention.
- The invention, "Innovation in Cocoa Value Chain Management in the Cocoa Ecosystem," from the School of Agricultural Resources, received the Gold Medal.
- The invention, "Ready-to-Eat Egg White Protein Noodles (Flourless)," from the Faculty of Allied Health Sciences received the Gold Medal.

**Organized by the National Innovation Agency,
the company received two awards:**

- The CU ENTERPRISE INVESTOR OF THE YEAR award recognizes its contribution to venture capital and its impactful investments in the national and international startup ecosystem.
- The BEST OF CONTRIBUTOR IN HUMAN CAPITAL DEVELOPMENT award, recognizing the company's potential as a large organization in developing a technology workforce, enhancing innovation and digital capabilities, and driving the growth of startups in Thailand.

DEmark Award 2023

A project by alumni from the engineering program, funded by CU Innovation Hub, using the VIABUS platform, received the Design Excellence Award (DEmark), a Thai certification mark for well-designed products, and the Good Design Award (G-Mark) from the Japan Institute of Design Promotion for its outstanding design. The competition received submissions from over 5,000 projects worldwide.

**ARISTOTLE Global Competition Award,
Taipei Medical University**

A research project from the Faculty of Dentistry, titled "Exploring Jagged 1 as a Therapeutic Molecule in Osteogenesis Imperfecta," won first prize for its presentation. This research has the potential to lead to an innovation in oral health.

**The 7th China (Shanghai) International
Invention & Innovation Expo 2024**

The innovative project from the Faculty of Education, which integrates cultural capital and beliefs with artistic activities in the form of souvenirs inspired by folk art, received a gold medal and the Leading Innovation Award from the Macao Innovation and Invention Association at "The 7th China (Shanghai) International Invention & Innovation Expo 2024".

**Innovative educational media from Iena 2023,
Germany**

A project from the Faculty of Veterinary Medicine received a silver medal for its large white rat model made from recycled materials. This model, used in veterinary anatomy education, replaces the use of real animal bodies, helping students better understand lessons in a three-dimensional format.

Chulalongkorn University: Accessible to Everyone in Society

The university recognizes the importance of social service and collaborates with external organizations, including government, the private sector, and community groups, to support and promote academic programs and research. The goal is to become an international university and partner with leading global organizations to address national development needs, boost income, and create a sustainable society by ensuring equitable access to knowledge.

Siam Square: A space for all Thais

This space aims to promote participation between people with disabilities and the general public through various activities such as music, sports, dance, fashion shows, and exhibitions of products made by people with disabilities, becoming a new landmark for showcasing the talents of Thai people to both Thai and international audiences.

Chula Ari

Received the "THE Awards Asia 2024" award in the Research Project of the Year category. This project contributes to policy formulation, the development of mechanisms, and the implementation of policies to promote a holistic quality of life for the elderly.

Protecting Nan, Building Forests in Honor of His Majesty the King

The Regional Learning Network Center, in collaboration with the Nan Forest Conservation Foundation under the Royal Initiative, the Chulalongkorn University Alumni Association of Nan Province, government officials, educators, students, and the general public, planted 17,200 saplings of various Dipterocarpus species, including Dipterocarpus alatus, Dipterocarpus obtusifolius, Hopea odorata, Pterocarpus indicus, and other forest trees such as Bombax ceiba, Afzelia xylocarpa, and Tectona grandis, on an area of 15 rai (approximately 6 acres).

Chulalongkorn University staff affected by floods in Nan province.

The university provided essential supplies and necessities to Chulalongkorn University personnel working in Nan province to offer encouragement and alleviate hardship during the floods.

Chulalongkorn University promotes family dynamism, aiming for a society for people of all ages

Chulalongkorn University, in collaboration with the Department of Elderly Affairs, is organizing an international academic conference on "Enhancing Family Dynamics and Intergenerational Collaboration Towards an Inclusive Society." The conference aims to facilitate the exchange of knowledge and experiences applicable to the development of projects and policies to improve the quality of life and welfare of the elderly in Thailand.

Award-winning entry in the Public Service category, specifically in the Public Administration Innovation type

The university won the United Nations Public Service Awards (UNPSA) for Innovation in Public Administration in 2024 for its work on "Applying Academic Knowledge to Respond to the Pandemic" at the United Nations Public Service Forum and Awards Ceremony. The university has consistently received this award.

Medical treatment and healthcare

The university provides specialized healthcare services through various facilities, including: the Faculty of Dentistry Hospital, the Community Pharmacy Practice Center (Osth Sala), the Small Animal Hospital, the Veterinary Hospital in Nakhon Pathom Province, the Health Science Service Unit (Allied Health Sciences), the Psychological Assessment Center, the Mental Health Center, the Sports Center, and the Health Service Center.

SIFE MasterClass for the Community

The program targets primary and secondary school students and youth in rural areas, aiming to equip them with business knowledge to build their futures and prevent debt problems arising from illicit business activities.

Chulalongkorn University Health Center

The services provided included mobile health and dental check-ups, individual health consultations, and gathering feedback on the healthcare system from residents of the Bon Kai housing community.

Prosthetic feet for amputees at the Veterans General Hospital

This collaborative project between the National Research Council and the Faculty of Engineering, Chulalongkorn University, the Chulalongkorn University Academic Service Center, Mahidol University, and the Ministry of Higher Education, Science, Research, and Innovation aim to provide veterans and civilians with amputees of all levels with access to high-dynamic prosthetic feet, thereby improving their quality of life as expected.

Senior Health Promotion Center

Services include health promotion, self-care, slowing age-related decline, counseling, and demonstrations of elderly-centered care.

5 Streams of Goodness: Do Good with Your Heart

Activities commemorating the benevolent reign of His Majesty King Bhumibol Adulyadej, aimed at fostering a sense of social responsibility among faculty, staff, and students, included visits to: the Dog Island, a shelter for the homeless, the Rangsit Baby Home, the Elderly Social Welfare Development Center, and the Thanyaburi Women's Homeless Shelter.

Frog farming in Nan Province

The Regional Learning Network Center and the Faculty of Science jointly conducted a workshop on frog farming to supplement income and build sustainable livelihoods for residents of Nan Province.

Veterinarians Volunteering for Urban and Rural Community

This project has been continuously implemented and has now reached its 50th iteration, providing animal health services and animal care knowledge to rural communities in Mueang Nakhon Pathom District and Kamphaeng Saen District, Nakhon Pathom Province.

Parasite Diagnostic Services at Pak Kret Boys' Home

The Faculty of Allied Health Sciences collected stool samples to examine parasitic infections, as they can affect children's development and cause diarrhea. This activity also allowed students to practice their professional skills while contributing to society through hands-on experience.

ART AND CULTURE

Chulalongkorn University and the Preservation of Arts and Culture

Chulalongkorn University is guided by the vision of "A world-class university delivering life-changing values through innovative wisdom, mastery, and philanthropic spirit." Transitioning to an AI University, Chula adapts its role to deliver knowledge that improves the quality of life and promotes lifelong learning.

Number of Activities and Visitors

Attendees in Physical Format:

266,886 people

attended various cultural events and performance improvements organized by the university.

Social Network Engagement:

Reached **12,595,419**

total interactions across all social network channels (Followers, Video Views, and Facebook Reactions).

This included

11,519,869 video views

The annual event commemorating the birthday of Princess Dara

A tribute to her royal benevolence and the preservation of Lanna arts and culture, it includes cultural activities, music and dance performances, demonstrations, and sales of Lanna handicrafts.

Explore the World of Museums through the Rocks and Minerals

An exhibition on living organisms and natural resources in the field of geology, developed from classroom knowledge and combined with artistic presentation to make information more accessible to the general public.

Royal Commemorative Exhibition

The University, in collaboration with the Samakee Thai Autistic Association and MBK Center, organized a royal commemorative exhibition to celebrate the auspicious occasion of Her Majesty the Queen Mother's Birthday and National Mother's Day. A key highlight of the event was an exhibition themed "The Magical Mother," which showcased inspiring artworks created by children with special needs to express their profound love for their mothers.

Continuing the legacy of Thai music knowledge, Chulalongkorn University's

"Chulalongkorn University Cherishes Musicians" project is now in its 8th year. It aims to collect data on Thai musicians at the teacher and expert levels, compiling personal biographies, training history, and comprehensive knowledge of Thai music.

The Dhamma Center at Chulalongkorn University

serves as a central hub for religious activities within the Chulalongkorn University community, particularly during major Buddhist holidays. The ceremonies are conducted in a simple style while preserving customs and traditions.

The participation of the Chulalongkorn University community

The music featured students from the Thai Music Club, the Western Music Club of the Chulalongkorn University Student Union, and the Faculty of Education and the Faculty of Fine Arts. They performed a traditional Thai orchestra (Piphat Dukkadamban) in celebration of the university's 107th anniversary.

Bricked Up the University

An exhibition presenting the history of the construction of the current Maha Chulalongkorn Building, the first historical building to showcase architectural information, stucco decorations, and knowledge of restoration and conservation. This is presented through articles, photographs, videos, and 360-degree 3D simulations.

Contemporary Art Exhibition Showcase

This contemporary art exhibition brought creative research to life by blending traditional Sangkalok pottery with modern designs. Embracing the theme "What Does Your Sangkalok Doll Look Like?"

Inspiring the creation of art

Promoting the arts is another important mechanism that yields quality results, allowing those interested to learn about and experience creativity. We have diverse groups within society, reaching a global level.

The Phra Chutathut Royal Residence Museum on Koh Si Chang

A features exhibitions and activities for youth, the community, and tourists, with young tour guides leading the visits.

Fostering cultural ties between Thailand and China

Chulalongkorn University Choir was invited to perform at the China Qiongzhou International Folk Song Festival in Kaili, Guizhou Province, People's Republic of China.

Physical Space

The area within Chulalongkorn University comprises 201 buildings with a total usable area of 1,843,744.00 square meters, divided into:

Commercial Areas: **592,000.00** sq.m. Educational Areas: **946,236.09** sq.m.

Areas borrowed by other government agencies: **305,607.91** sq.m.

In addition, there are also university network areas, including:

- Phasing Research and Technology Transfer Station (Learning and Academic Service Center), Phasing Subdistrict, Mueang Nan District, Nan Province
- Lainan Research and Technology Transfer Station (Animal Breeding and Selection Research Station), Lainan Subdistrict, Wiang Sa District, Nan Province
- Regional Learning Network Center, Kaeng Khoi District, Saraburi Province

Chulalongkorn University Areas

Bangkok:	Phaya Thai Road, Pathum Wan District
Chiang Mai:	Dara Phirom Palace, Halal Science Center, Chulalongkorn University (Chiang Mai Office)
Nan:	Pha Sing Research and Technology Transfer Station and Lai Nan Research and Technology Transfer Station
Saraburi:	Regional Learning Network Center, Chulalongkorn University, Saraburi
Nakhon Pathom:	Veterinary Student Training Center and Livestock Hospital
Chonburi:	Phra Chuthathut Palace and Cholathassathan Museum, Ko Si Chang Marine Science Research Station and Student Training Center, Ko Si Chang
Pattani:	Halal Science Center, Chulalongkorn University (Pattani Office)

Number of Personnel

In 2024, there were a total of **7,775** personnel, categorized as follows:

Academic Staff: 3,009 persons, consisting of 2,523 Ph.D., 381 Master's degree, and 105 Bachelor's degree holders.

Operational Staff: 4,766 persons, consisting of 64 Ph.D., 751 Master's degree, 2,594 Bachelor's degree, and 1,357 below Bachelor's degree.

Academic Ranks of Academic Staff

In 2024, academic staff held the following academic ranks:

- 245 Professors,
- 804 Associate Professors,
- 898 Assistant Professors,
- 966 Lecturers,
- 96 Researchers.

Integrity and Transparency Assessment (ITA)

Chulalongkorn University passed the 2024 ITA evaluation

with a score of **88.99** and achieved a **full 100 points** in Open Data for the **fifth consecutive year**.

*(Integrity and Transparency Assessment : ITA)

REPORT ON THE PERFORMANCE OF THE AUDIT COMMITTEE FOR FISCAL YEAR 2024

Performance Report of the Audit Committee, Chulalongkorn University, for Fiscal Year 2024

The Audit Committee was appointed by the University Council for a three-year term from 31 July 2022 to 30 July 2025, in accordance with the Chulalongkorn University Announcement on the Appointment of the Audit Committee dated 6 July 2022. The Committee performs its duties in accordance with the Audit Committee Charter and promotes good corporate governance within the University. This includes ensuring appropriate risk management and internal control systems, as well as preparing and disclosing financial information in accordance with relevant standards, completely and transparently. The Committee also oversees and monitors compliance with the University's policies, strategies, development guidelines, laws, regulations, rules, and announcements to achieve organizational objectives efficiently and build confidence and credibility among all stakeholders.

In fiscal year 2024, the Audit Committee held a total of 15 meetings. This included one joint meeting with the President of the University Council, one joint meeting with Chairman of the University and the University executives, and two joint meetings with the Risk Oversight Committee. The attendance of the Committee members is summarized as follows:

Name	Position	Attendance
1. Assoc. Prof. Dr. Danuja kunpanitchakit (Distinguished member of the University Council)	Chairman	*14/15
2. Dr. Suphamit Teechamontrikul	Member	14/15
3. Mr. Suchart Thammakitagkul	Member	15/15
4. Assoc. Prof. Dr. Teeraporn Veerathawor (Representative of Chulalongkorn University Faculty Senate)	Member	15/15
5. Mr. Sorasit Soontornkes (Director of Internal Audit Office)	Secretary	15/15

Note: Assoc. Prof. Dr. Danuja kunpanitchakit completed her term as an External Member of the University Council and therefore ceased to serve as Chairperson of the Audit Committee. Subsequently, she was graciously reappointed as an External Member of the University Council and was appointed to serve another term as Chairman of the Audit Committee.

The Audit Committee conducted a self-assessment of its performance regarding its roles and responsibilities and reported the results to the University Council. This was to acknowledge achievements in meeting its objectives and work plans, and to identify approaches to the achievements in fulfilling its objectives and work plans, as well as to identify approaches for improving the efficiency of its duties. The process aims to ensure transparency in the Committee's operations and to comply with the principles of good governance, thereby strengthening stakeholders' confidence in the Audit Committee's performance.

The key performance results of the Audit Committee (AC) for fiscal year 2024 are summarized as follows:

1. Review of the Audit Committee Charter. The Audit Committee reviewed the Audit Committee Charter annually to ensure alignment with sound internal auditing principles and with the Ministry of Finance's regulations on standards and operational guidelines for internal auditing of government agencies (Amendment No. 4, B.E. 2566 [2023]). This review aimed to ensure that the Charter is appropriate and covers the scope of responsibilities of the Audit Committee in the University's operations. The revised Charter was subsequently submitted to the University Council for approval.

2. Review of Internal Control, Risk Management, Good Governance, and Compliance with Laws and Regulations. The Audit Committee reviewed the internal audit function to ensure that it adequately assessed the effectiveness of internal controls, risk management, transparency of operational processes, and compliance with relevant laws and regulations. The Audit Committee provided key recommendations to the University, including establishing processes to monitor and report compliance with University Council resolutions and agreements with external organizations, in accordance with good governance principles. The Committee also recommended reviewing the organizational structure and appropriate workforce plan for newly established units and units with significantly increased workloads; implementing proactive risk-management measures; and aligning the University's strategy with faculties and units through appropriate performance indicators. In addition, the Committee emphasized the continuity of management for property development projects, with due consideration given to potential opportunity losses. The Committee also addressed the University's governance in innovation and the management processes related to information technology

3. Review of Financial Statements and Meetings with the External Auditor. The Audit Committee reviewed the University's annual financial statements in collaboration with the management, the Internal Audit Office, and the external auditor to ensure the accuracy and completeness of financial reporting. This included reviewing significant accounting adjustments, accounting estimates, and the appropriateness of accounting methods; evaluating the effectiveness and adequacy of financial internal controls; assessing the disclosure in the financial statements; and evaluating the independence of the external auditor. The Audit Committee also met with the external auditor, in the absence of management, to discuss audit results, issues, and challenges encountered during the audit; auditor independence; and the auditor's opinions.

Furthermore, the Audit Committee discussed with the external auditor the annual audit plan, key risk areas, and the audit scope for the following fiscal year. The Committee also provided comments to the auditor to ensure that the audit plan adequately covers significant matters and risk factors. This helps ensure that the University's risks are comprehensively assessed and supports the University in supervising operations, monitoring them, and implementing measures to mitigate risks. In addition, the Audit Committee requested that the University periodically report its operational results and financial statements to the Committee.

This enables the Committee to monitor key operational and financial management outcomes and to provide timely observations and recommendations for improvement.

4. Appointment of External Auditors and Audit Fees. The Audit Committee considered and proposed to the University Council the appointment of the University's external auditors, together with the audit fees, in accordance with the framework and regulations of the State Audit Office of Thailand. In addition, the Audit Committee approved the appointment of external auditors and the associated audit fees for various University units designated by the University to require specific external auditors for such units.

5. Consideration of Appointment, Transfer, Removal, Promotion, and Performance Evaluation of the Director of the Internal Audit Office. In 2024, the Audit Committee evaluated the Director of the Internal Audit Office's annual performance and discussed the matter with the University President. The Committee then proposed to the University Council the reappointment of the Director through a contract renewal for another three-year term, which was subsequently approved and appointed by the University Council.

6. Oversight of Internal Audit Activities. The Audit Committee reviewed the Internal Audit Charter annually to ensure alignment with sound internal auditing principles and compliance with the Ministry of Finance's criteria. The Committee also oversaw adherence to the Charter, approved the annual audit plan in collaboration with the President, and submitted it to the University Council. Furthermore, the Committee supervised and monitored the implementation of the audit plan, considered and approved audit reports, provided key recommendations, and continuously followed up on the implementation of audit recommendations by audited units and the University on significant matters. In addition, the Committee approved the Internal Audit Office's budget and resource allocation plan for submission to the University.

7. Meeting with Chairman of the University Council. The Audit Committee met with Chairman of the University Council to report on and discuss significant policy issues arising from audit results, and to receive audit policy directions from Chairman. Chairman provided recommendations to enhance audit activities, emphasizing the importance of ongoing performance audits, as these help assess the efficiency and effectiveness of operations in line with the University's policies and strategies to achieve established objectives and goals. Chairman also emphasized the importance of governance oversight and risk assessment to prevent potential issues in the present and the future.

8. Meeting with the Risk Oversight Committee. The Audit Committee held two meetings with the Risk Management Committee to acknowledge the results of university-level risk management and jointly consider key risk issues facing the University to establish an enterprise risk management framework. The discussions included operational approaches and measures for managing risks, as well as assessments of potential risk situations. These efforts aim to ensure the University has an appropriate risk management process that effectively identifies and mitigates risks.

9. Meeting with the President and Senior Executives. The Audit Committee held one formal meeting with the President and senior executives of the University to summarize significant audit results in accordance with the annual audit plan, review progress on implementing prior audit recommendations, and discuss audit findings with policy implications. The meeting aimed to reach a mutual understanding on strategic improvements or corrective actions. The discussion also covered improvements to management systems, internal control, and risk management to strengthen good governance, transparency, and operational efficiency. In addition, the Committee discussed the review of the Audit Universe, which is an organization-wide audit framework, and jointly considered the audit plan for the following year.

10. Development of Internal Audit Activities, Internal Auditors, and Quality Assurance. The Audit Committee evaluated the Internal Audit Office's performance and met with its personnel to provide recommendations on developing the internal audit system and enhancing internal auditors' capabilities. For example, the Committee encouraged greater use of technology in audit work, particularly artificial intelligence (AI). It also supported the development of personnel competencies in various areas beneficial to auditing, with an emphasis on contemporary issues aligned with the University's strategies and management directions, such as Environmental, Social, and Governance (ESG). The Committee emphasized the importance of succession planning at all levels and recommended developing guidelines to support performance evaluation, professional development, and career advancement. Regarding quality assurance, the Audit Committee supported, acknowledged, and provided recommendations on the Internal Audit Office's annual self-assessment in accordance with the criteria set by the Comptroller General's Department.

Overall Opinion of the Audit Committee

The Audit Committee performed its duties independently and impartially within the scope of its authority, roles, and responsibilities, as strictly defined in the Audit Committee Charter, and in accordance with good internal auditing principles and the internal auditing criteria and standards prescribed by the Ministry of Finance. The Committee promoted effective, efficient internal auditing, with a focus on performance audits aligned with the University's key strategies and major risks. This enables the Committee to provide strategic and policy recommendations, mitigate risks, and improve work processes that benefit administrators at both the university and faculty/unit levels, thereby creating added value for the University and enabling it to respond to future challenges sustainably.

The Audit Committee has concluded that the University has complied with all applicable laws, regulations, procedures, and requirements. Its operations are well aligned with the policies, opinions, and resolutions of the University Council and the management. The University also demonstrates effective risk management in fraud prevention and good governance, in accordance with governance principles, and maintains an efficient internal control system. Furthermore, the University can respond promptly and effectively to incidents or crises to minimize impacts and continue its mission and innovation activities through flexible, adaptive management. Therefore, the University is confident it will achieve its established objectives and goals while sustainably strengthening long-term stakeholder confidence in a sustainable manner.

LIST OF MEMBERS OF THE UNIVERSITY COUNCIL AND UNIVERSITY EXECUTIVES

List of Members of the University Council and University Executives

The Chulalongkorn University Act B.E. 2008 stipulates that the University Council is the University's highest governing body responsible for its administration. It has the authority and duty to supervise the overall affairs of the University, including setting goals, establishing policies, and determining

development directions to achieve the objectives of the University. The Council also issues regulations, rules, and announcements, approves appointments, and monitors and evaluates the University's performance.

Members of the Chulalongkorn University Council

The Council consists of the President of the University Council, the Vice President of the University Council, President of the University, external qualified members, Chair of the Faculty Senate, President of the Chulalongkorn University Alumni Association under the Royal Patronage, members who are

heads of academic units, faculty representatives, members who are heads of non-academic units, Secretary of the University Council, and may appoint Assistant Secretaries of the University Council as follows:

President of the University Council Special Professor Dr. Surakiat Sathienthai (Since 4 June 2024; Former term: Emeritus Professor Dr. Pirom Kamolratanakul)	Vice President of the University Council Special Professor Prasit Kovilaikool	President of the University Professor Dr. Wilert Puriwat (Since 30 June 2024; Former term: Professor Dr. Bundhit Eua-arporn)
---	---	---

External Qualified Members

(Since 24 January 2024)

1. Assistant Professor Dr. M.R. Kalaya Tingsabhat
2. Special Professor Kitipong Uraepatanapong
3. Ms. Kattiya Intrawichai
4. Special Professor Khemchai Chutiwong
5. Emeritus Professor Dr. Charuay Boonyubol
6. Associate. Professor Dr. Danucha Khunphonitkit
7. Mr. Thewin Wongwanich
8. Associate. Professor Dr. Thanit Thongthong
9. Special Professor Prasit Kovilaikool
10. Mr. Vasiit Taepaisitphongse
11. Ms. Wiwan Tharahirunchote
12. Ms. Venus Asavasidhithavorn
13. Dr. Suphamit Techamontrikul
14. Emeritus Professor Dr. Suthiporn Jittmittraphap
